Imago Mundi –

Luciano Benetton Collection

Almost 7,000 artists with 10x12 cm artworks from Imago Mundi, Luciano Benetton's global art project. The exhibition includes collections from more than 40 nations and native peoples representing the five continents.

In the current climate of arrested utopias, attacks on cultural heritage, assaults on imagination and knowledge, Imago Mundi comes to Venice to propose an art without borders that breaks the silence, goes beyond differences, pushes forward civilization.
